

You'll Be Mine The Pierces

capo on 5th

Intro:

F, Am x4

We could bring a blanket for the grass

Cover up your eyes so you don't see

If you let me go I'm running fast

One two three count one two three

We could watch the black birds cross the skies

We could count the leaves left on the trees

We could count the teardrops in our eyes

One two three yeah one two three

One two Fthree yeah one two three

Now you know now you know

How I feel and I won't back down

Prick your finger on a spinning wheel

But dont make a sound

Drop of blood and now you're taken

For all time

With a kiss you will awaken

And you'll be mine, you'll be mine, you'll be mine

I could always stay and work it out

Wondering if you still wanted me

But there are so many things to doubt

One two three count one two three

Think that for a moment you were mine

I know that you saw what we could be

But then you went and changed your mind

One two three yeah one two three

One two three yeah one two three

Now you know now you know

How I feel and I won't back down

Prick your finger on a spinning wheel

But don't make a sound

Drop of blood and now you're taken

For all time

With a kiss you will awaken

And you'll be mine, you'll be mine, you'll be mine,

you'll be mine, you'll be mine
